

Harish Suthar

Linkedin: <https://www.linkedin.com/in/harish-suthar09/>

Github: <https://github.com/harish029-svg>

Email: harissh029@gmail.com

Mobile: +91 8360455814

SKILLS

Languages:	Python, C++, C, Java, JavaScript, TypeScript, SQL
Tools & Databases:	MongoDB, MySQL, PostgreSQL, Git, GitHub, Postman, Docker, REST APIs, Socket.IO
Frameworks & Libraries:	React.js, Node.js, Express.js, Next.js, Tailwind CSS, Fast API, Three.js
Core:	DSA, OOPS, DBMS
Soft Skills:	Problem-Solving, Effective communication, Team Work, Adaptability

PROJECTS

Voidra AI LIVE	May' 26
- Delivered a fully responsive, full-stack web application as measured by consistent UI performance across screen sizes and devices through building an interactive Three.js frontend with HTML, CSS, and JavaScript, connected to a Python REST API backend deployed on Vercel - Reached 100% feature isolation across 3 integrated modules as measured by zero cross-module data conflicts during testing via designing and structuring RESTful API endpoints to handle debugging, generation, and enhancement requests independently - Achieved sub-2ms local request handling as measured by benchmarked routing latency during load testing by architecting the backend request pipeline and API layer to process and route data before invoking external AI services Tech: JavaScript, HTML, Tailwind CSS, Python, Three.js, JWT, REST APIs, AI/LLM Integration	
Urban Tourism Optimizer LIVE	Apr' 26
- Produced a complete full-stack application with a functioning data pipeline as measured by successful processing of 10,000+ records without data loss through developing CRUD-based data handling logic and cleaning multi-source spatial-temporal datasets - Improved platform response speed by 40% as measured by pre- and post-optimization load time comparisons through restructuring the REST API architecture connecting the React frontend to the Flask backend - Attained an 88% model accuracy rate on live data as measured by validation testing against real-time tourism density inputs via building a responsive, API-driven dashboard using Stream lit and Flask Tech: React, Tailwind CSS, REST APIs, npm, JWT, Three.js, Weather API, ML Predictive Analytics	

TRAINING

AI-Driven MERN Stack Bootcamp Lovely Professional University Certificate	Jun' 26-Jul' 26
- Earned a top-tier A Grade as measured by program-wide performance benchmarks through completing a 5-week Agile-style, sprint-based full-stack and DevOps curriculum - Built a scalable full-stack CRUD application as measured by a 25% reduction in server-side response times through developing RESTful APIs and integrating React, Node.js, Express, and MongoDB with version-controlled Git workflows - Maintained 99.9% uptime during testing as measured by continuous monitoring across deployment cycles through automating CI/CD pipelines and containerizing services with Docker	

ACHIEVEMENTS

Solved 150+ problems on LeetCode, gfg, CodeForces
Achieved 50-day and 100-day consistency streak badges on LeetCode
Represented LPU at AIU Yogasana Championships (KIIT 2024, Vels Chennai 2025) Certificate

CERTIFICATES

Database Management System Part-1 Infosys Springboard Certificate	Sep' 26
Certificate of Cyber Job simulation Deloitte Certificate	Jul' 26
Introduction to AI & ML MOOC with Proctored Examination Skill Era Certificate	Mar' 25

EDUCATION

Lovely Professional University	Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 8.75	Aug' 24 – Present
SVPS School	Palsana, Rajasthan
Intermediate; Percentage: 73.5%	Mar' 22 – May' 23
BrahmRishi Mission School	Abohar, Punjab
Matriculation; Percentage: 86%	Mar' 20 – May' 21
